

HOSPitALS , CLINICS

03 users

- 1. vendor**
- 2. customer**
- 3. supply chain management team – all features**

Home screen

- start a new contract**
- view ongoing contract**
- search for vendor**
- payment details**
- search for supplies**

customer - homescreen

- look up a vendor or product**
- profile of vendor - dets, what they own, products**
- purchasing , a form**

SEM

**oversse everything,
when a customer makes a request, alerts must
be given**

**contact dirextly , customer and vendor proceed
with everything
ot request the sem, they filter out and suggest
everything**

VENDOR – unique option

**Inventory management
section for incoming requests , and review the
customer**

LOGIN SIGNUP – web app

Home page - vendors , customers, Invoice, Payment, Product, Inventory

vendors - access their inventory , new request, alerts, quote status , purchase order, delivery details

customers - look up for vendors and product, quote access, cart system with products and same vendor. if same vendor there shld be a button called " RFQ" - then vendor gets the request for all the pridcuts , o2 coptions for accept and decline. if accpeted automatically take the customer to next step, PO- purchase order , if decline process ends. (decline - a query)

both customer and vendor - section for purchsae order, current and past orders with appropoiate status , ongoing , pending payment done

after accepting the invoice and creating a purchase order- to create the purschase order they have to order.

left nav bar

customer shld have an option to review the vendor and the product .
